## Skills

- **Frontend Development:** React, NextJS, React Native, Flutter – Building reusable components and real-time features.
- **UI/UX Design:** Figma, Adobe XD – Focusing on user-centered, responsive designs.
- **Backend Development:** Node.js, Django, Supabase – Developing RESTful APIs, real-time databases, and user authentication.
- **Database Management:** PostgreSQL, MongoDB, SQL – Managing schema design and data storage

## Achievements

● Independently Developed Voicify

Voicify is an innovative mobile application designed to empower the deaf and hard of hearing by enabling them to send emails effortlessly. The app utilizes advanced speech-to-text features and integrates seamlessly with email services to offer a streamlined, accessible communication experience, helping users overcome communication barriers in a practical and user-friendly way.

● Solely Created Sync

I developed Sync, a community-oriented application tailored for small businesses and cooperatives. Sync offers a variety of features aimed at streamlining operations, improving collaboration, and enhancing overall profitability for its users.

## Education

Bells University of Technology

Sango Ota, Ogun State, Nigeria
